ALI ISMAIL HASSAN

Backend Developer

Cairo, Egypt | +201120450953 | aliismailh08@gmail.com | linkedin.com/in/aliismail256 | github.com/ALI1JS

PROFESSIONAL SUMMARY

Backend Developer focused on building efficient, scalable applications and managing databases. Familiar with DevOps practices for streamlined deployments and frontend technologies, enabling me to contribute effectively to complete, end-to-end solutions.

EDUCATION

Bachelor of Science in Computer Science and Information

Minya University | Minya, Egypt

PROFESSIONAL EXPERIENCE

Backend Developer

Inno Code | Cairo, Egypt | May 2025 – Current

- Developed and maintained scalable backend applications using Node.js and NestJS.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Owned deployment processes and CI/CD pipeline implementation for automated delivery.
- Maintained and optimized database performance and API endpoints across applications.
- Integrated third-party services and APIs into backend systems.

Freelance Backend Developer

Freelance | Remote | Sep 2024 – May 2025

- Delivered backend solutions for three client projects over an 8-month freelance period.
- Designed and built scalable APIs, database schemas, and integrations for production applications.
- Handled deployments, third-party service integration, and performance optimization independently.
